

B50xxx Series

Duo SIM Card Adapter

Product > Extender Board > B50xxx Series

B5018B

First Impression

B50 Series duo SIM card adapter is a debug and test tool for mobile phone. Design the FPC cable for flexible use.

It allows duo SIM Card to be extended from the host slot for SIM interface. B50 allows you to switch between your SIMs by switch

B50 also is a powerful tool for engineers, fast and easy to use on mobile phone for SIM test protection.
